Built and installed to last.

# Pivot Series

Our shower screens set the standard for craftsmanship and value for money. Made with long-lasting, high quality materials and designed to adapt to numerous configurations, these screens offer years of trouble-free use and can be custom fit to any style and any budget.

## Features

- Magnetic closing catch
- Variety of frame colours
- Optional stylish handles
- Smart drainage profile

## Options

- Framed
- Semi-frameless
- Frameless

## Design Configurations

### Can't see your configuration?

We'll custom fit the doors to match your home, just ask our sales team.

## Flexible and functional

Be it a 90° or 45° pivot door, different configurations allow for placement of the vanity and toilet on either side of the screen without compromising the door opening. To add to the custom fit and look, all screens can be styled with a wide range of additional features and colour options.

# Sliding Doors

Where a swinging door simply isn't practical, our sliding door shower systems provide reliable strength with sleek, modern elegance and maximum flexibility for smaller bathrooms. Sliding doors reduce the overall space required for a shower recess, whilst minimal metal use makes cleaning easy.

## Design Configurations

## Smooth and good-looking

Along with a range of configuration like 2, 3 and corner opening doors, both the semi frameless and the framed slider doors offer a selection of colours, handles and finishes to customise the look and match your style.

## Options

- Framed
- Semi-frameless
- Frameless

# Frameless Bath Panels

Frameless designs offer a sleek, minimalist style while maximising available space within a bathroom. With a custom configuration, frameless screens can be made to be the talking point of the room or styled to blend in. Either way, they're structurally strong, easy to clean and incredibly good-looking.

## Elegant and strong

Our gorgeous glass hardware brings strength and luxury to your frameless panels, highlighting the open feel of the glass. Tested for durability and designed to be ahead of trend, you can pick and choose from a range of styles to create the look you're after.

# Mirrors

Every bathroom needs a mirror, so choose a mirror that matches your style. Like all of our products, our mirrors can be custom made to fit your layout. Easy to clean and with no sharp edges, our mirrors come in a range of styles including framed, semi-frameless, and stand-off frameless.

## Styles

Framed

Semi-Frameless

Frameless

Stand-off Frameless

## Bathrooms and beyond

If you want a room to appear more spacious, just add a mirror. Be it the lounge, living or dining, a mirror can add light, depth and style to any room in your home.

# Splashbacks

The flat, high gloss surface provided by glass makes it the ideal material for a splashback. With a huge selection of colours available, and our custom design and installation service, splashbacks can be created as a subtle complement to your kitchen's style or a bold feature statement that makes the room.

## Tough and tidy

Made with high quality, toughened safety glass, our splashbacks are easy to clean and engineered to handle a lifetime in the kitchen.

## Popular Colours

			
Baileys	Glacier	White	Billabong
			
Stainless	Bright Silver	Copper	Bauxite
			
Neutral Grey	Morning Dew	Cyan Sea	Flame Red

**Can't see the right colour?** Contact our sales team to see our full range.

# Robes

Our robes are specified by designers and architects for their style, appreciated by builders for their reliability and loved by householders for their easy-clean, good looks and longevity. They're made-to-measure, stylish, durable and designed to function smoothly for years to come. Sizes range from small double doors up to large multi-door super storage options.

## Panel Colours

Glacier (vinyl std)

Chalk (vinyl std)

White Birch (vinyl std)

Buff (vinyl std)

White Kote

Mirror

Gesso Lini

Rocco Lini

Red Back (colour vinyl backed)

## Fine and functional

All systems run on hard-wearing, load-bearing, nylon base rollers. And to make sure the style lasts as long as the hardware, there's a choice of designs that can be coupled with mirrors, coloured glass, melamine, vinyl and timber infill panels to match your home's style.

## Frame finishes

Pearl White

Bright Silver

Matt Silver

Black (excludes robes)

From modern clean-cut, non-sharp edges to more traditional framed shower screens and mirrors, Glass Co WA products are available in a range of colours and finishes to match your home's style. If you have a specific style in mind, we encourage you to get what you want. Just ask our sales team and they can talk you through custom configurations and available styles. We'll do everything we can to give you screens, mirrors and robes that match your lifestyle and fall within your budget.
